H2Teesside: Consultation on proposed changes to our Development Consent Order application

Dear resident,

We are writing to inform you about a number of changes we're proposing to make to our application to construct and operate a blue hydrogen production facility – known as H2Teesside – on land at the former Redcar Steelworks, and provide details on how you can comment on the proposed changes.

You are receiving this letter because this address falls within 2km of the boundary of the proposed development.

Details of how to respond to this consultation can be found at the end of this letter.

Background to the proposed development

In March 2024, we submitted an application for a Development Consent Order to seek consent to build and operate H2Teesside to the Planning Inspectorate, who are responsible for administering the application process on behalf of the Secretary of State. The Secretary of State has appointed a panel of planning inspectors, known as the Examining Authority, which is now responsible for examining the application over a 6-month period starting on 28 August 2024, before making a recommendation to the Secretary of State on whether to grant consent for the project.

For more information on our H2Teesside proposals please visit: www.h2teesside.co.uk

The application documents and further information on the application process are available on the Planning Inspectorate's website: <https://national-infrastructure-consenting.planninginspectorate.gov.uk/projects/EN070009>

Proposed changes to our application

Since the submission of our application, we have continued to refine our designs while also engaging with interested parties to try and address their comments.

This work has identified a number of changes we are now seeking to make to the proposed development. The changes proposed reflect further engineering and design development of the proposed development, changes to construction approach and techniques, reductions in the Order Limits (from approximately 507 to 406.9 hectares), seek to respond to comments received from interested parties, deliver improvements to the proposed development, seek rights over an existing gas pipeline, remove optionality, and reduce its overall impacts. We therefore intend to submit a change request to the Examining Authority.

About this consultation

This consultation runs from 6 September 2024 to 23:59 on 7 October 2024.

Further information on the proposed changes, including environmental information and plans showing their location, can be found on our website: www.h2teesside.co.uk

You can also visit one of the following information points to view our consultation documents on a publicly accessible computer:

Have your say

If you have any comments on the proposed changes, we encourage you to have your say.

You can respond to this consultation in the following ways:

- **Online:** Fill in the response form at www.h2teesside.co.uk
- **Freepost:** Write to us at FREEPOST H2Teesside
- **Email:** Write to us, or send a completed response form to info@h2teesside.net

Please make sure your response reaches us before 23:59 on 7 October 2024. Responses received after this time period may not be considered.

What happens next

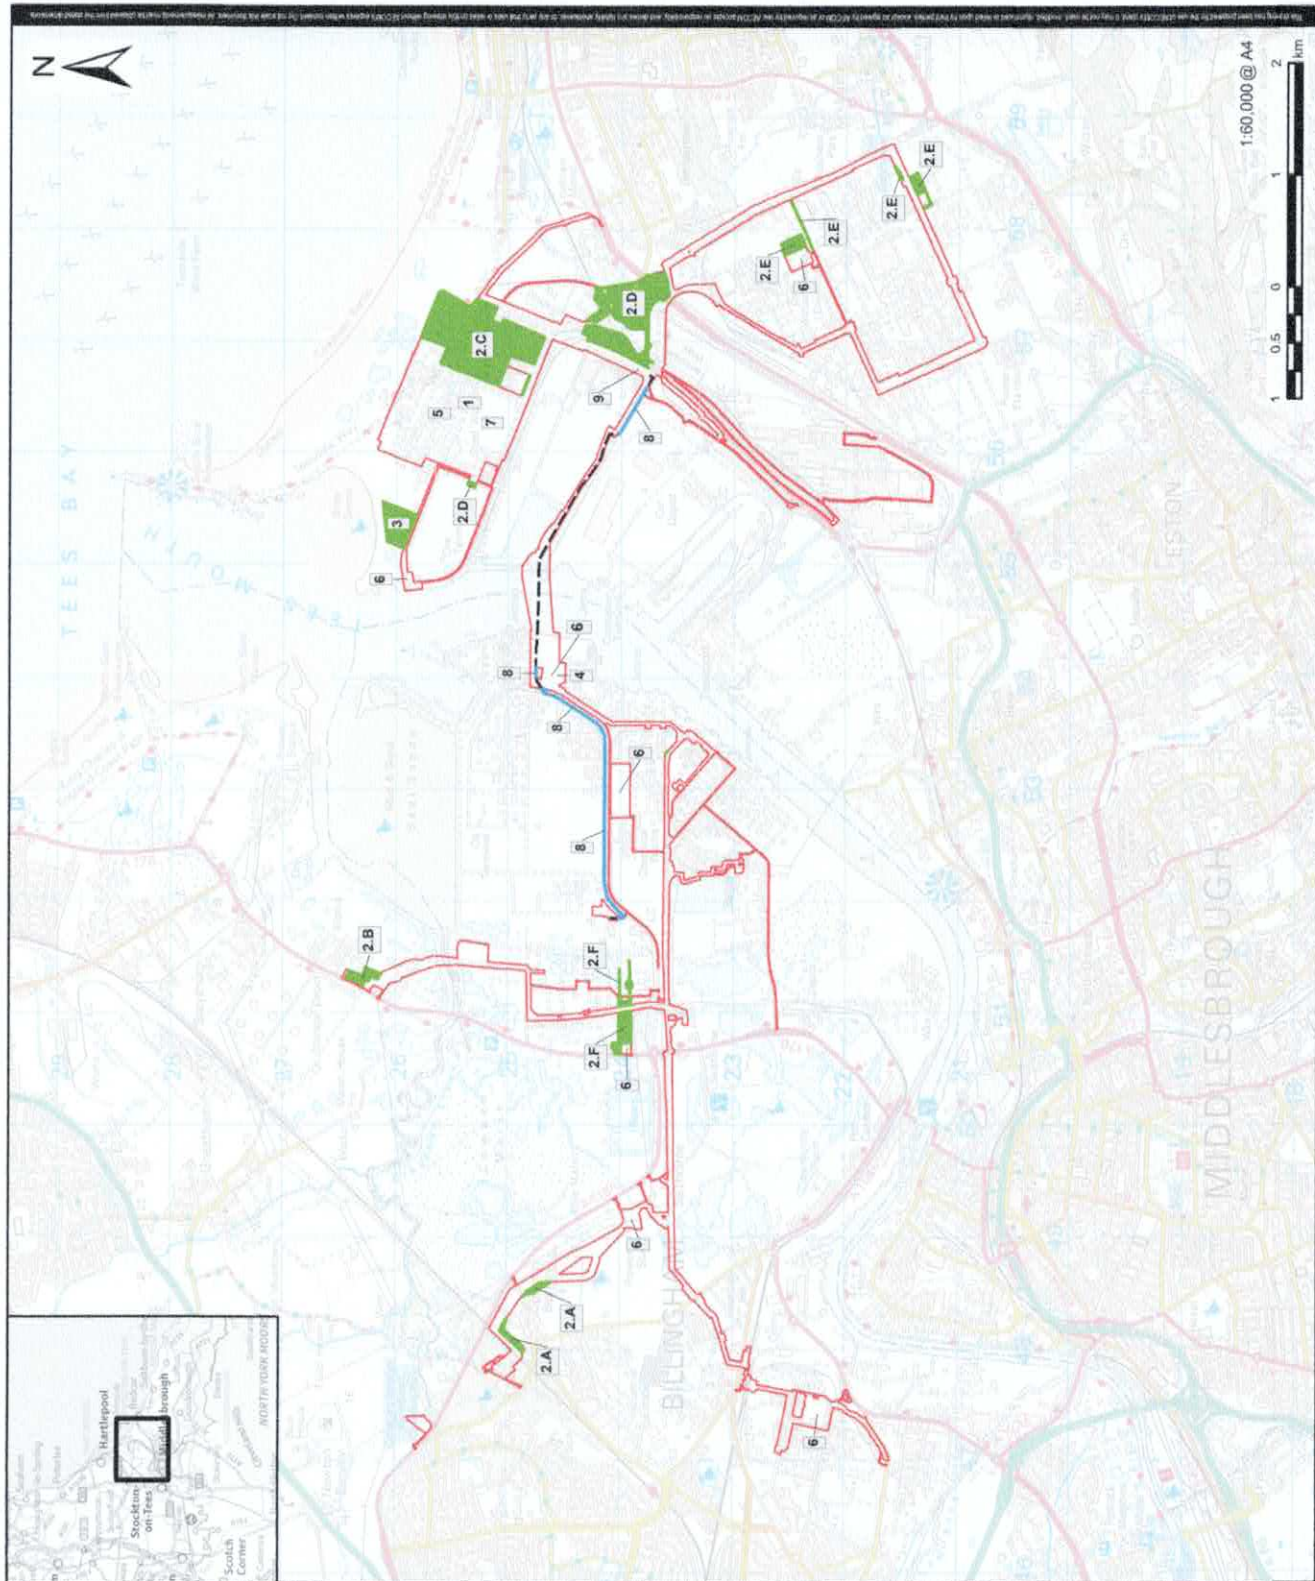

Following the close of this consultation, we'll review and take into account the feedback received before we finalise and submit a formal change application to the Examining Authority, who are the panel of inspectors appointed to examine our application.

The Examining Authority will then decide whether to accept or reject the changes requested for consideration during the Examination.

Yours faithfully,

H2 Teesside Limited
